PECO Meter Panel/Board Alternatives

We are able to offer our HBA builders assistance in finding PECO 320 AMP Meter panel/board alternate options.

If you can find a 200 or a 320 alternative AMP meter panel/board, please send the following information (below) directly to William Sheneman, william.sheneman@peco-energy.com and Chris Mason: christopher.mason@exeloncorp.com, our PECO representatives, and they will assist you in getting another option approved.

Must include these specs in your email:

- Photos of meter socket, inside and outside with cover on and cover off
NOTE: photo can come directly from website or photos of the product
- The website address if you are buying product directly from a site.

Please note meter must be ringless or it will not be approved
